As we entered the Radisson Hotel after long jet rides and car trips, we were eager to check-in and connect with other YO-HI alums. In the lobby,

lim Zinn, our reunion coordinator, was ea-

gerly awaiting arrivals. After receiving a few directives, we unpacked and settled in. The fun was about to begin. It wasn't long before people gathered in the lounge area and shared good food and libations. The reunion took off with laughter and chatter.

All of a sudden uproarious screams were heard. Turning around, we saw two gals jumping up and down in the foyer of the lobby. They embraced, as one said to the other, looking intently into her long lost friend's face ... "You have no wrinkles!" The entire room of seniors howled in appreciation at the honesty as the two old friends met after their farewell to Japan fifty-two years ago. This was, and is, part of the splendor of these annual reunions.

Each of us can speak about our treks on the bus, the light rail, the Argosy cruise, and the monorail. We can share our experiences of our lunch or din-

ner at Sky City at the Space Needle; our walks through the Pike Place Market with the flying fish demos, gorgeous flowers, and scrumptious produce; and visiting the original Starbuck's Café on the occasion of its anniversary...even singing along with the guys outside who were jamming and inviting the

tourists inside to buy souvenirs. Some of us visited museums or took a bus tour of the Emerald City and explored the sights and sounds of autumn in Seattle. One highlight of our stay was the October-fest luncheon cruise around the Puget Sound. The weather was ideal...sunny and windless. We were able to walk on deck in complete leisure and comfort, after being entertained during lunch by one of our own who has a great voice. That was a special treat for the band and a proud moment for all of us. In true cruise fashion, a photographer snapped pictures as we boarded the ship, developed, and posted them as we came off the ramp on our return... another memento of the day.

Days were full with tours in spite of the occasional torrential rains. Nothing dampened the spirit of this group. Hours were spent in the hospitality

room looking at yearbooks and old snap shots, and having long talks about our life's journey. Dinner and dancing to the music of the 50's on Friday and Saturday evenings were special, as we sang along and did some swinging or slow danc-

ing. You can't resist being transported back in time, feeling and looking young again, even if only in our individual minds. Sad is the person who missed seeing the beauty of the passing of time, the warmth it evokes in hearts, and the tenderness it calls forth when sharing the traumas and triumphs of living. Such was the case on Saturday evening, when See Reunion p.3

# SOUNDED LIKE A GOOD IDEA.....Christmas Cards to Troops The Good Intention: I got several emails suggesting that, when doing my Christmas

card list this year, take one card and send it to the address below. Just think of how many cards these wonderful special people who have sacrificed so much would get. Send cards to: A Recovering American Soldier, c/o Walter Reed Army Medical Center, 6900 Georgia Avenue, NW, Washington, D.C. 20307-5001

However...After checking with Snopes.com, I found out that the U.S Postal Service will not accept mail addressed to "Any Soldier," "Any Wounded Soldier," or similar addresses because, if it did, it would be providing a conduit for those who might do harm to armed services members. In these times of heightened security, mail from strangers to unnamed soldiers must, for everyone's safety, be discarded unopened.

Those wishing to send holiday cards to recovering soldiers can still do so through the "Holiday Mail For Heroes" program sponsored by the American Red Cross.

#### The Devil's Playground

Elaine was the Director of Music for Yokohama High School from 1956-58. The story is in the form of a letter written home to her Mother on September 14, 1956.

#### Hello Mother,

This morning I met Hiroshi Kadokura, an English teacher, at the Yokohama Train Station to go with him to attend a rehearsal of his Japanese chorus. The rehearsal was held in a Japanese high school so we had to remove our shoes before entering the building. Thoughtfully, Hiroshi had brought a pair for me. There must have been about forty members in the group, all about my age, and a few high school students. They were doing beautiful work but were anxious to have me sing for them. At first I just sang with them and "lah"ed along since they sang the songs in Japanese even though many of them were American. Stephen Foster's songs with their lovely melodies were some of the favorites. I finally asked them to choose a song for me to sing from their tattered song sheets. Guess what they requested -"Somewhere Over The Rainbow"! Their next choice was " 'Nita, Jua-

nita". They were so excited and clapped and clapped. After the rehearsal, many of us trooped down the nearby hills to four small lakes, singing along the way. Believe it not, one of their favorite songs was "A Bicycle Built For Two". With Hiroshi's help I tried to teach them the English words and explain the meaning of the song. They were so eager to learn, so friendly, and laughed so easily as we

shared this most unusual musical moment

What an introduction to the blending of Japanese/American cultures! It is an experience I shall never forget.

#### Reunion

Larry Rowe read the names of the alumni who passed away during the last year.

Through the tears evoked during this homage, we remembered in silent reverence-- a tribute to those who shared a time that was unique to all of us who went to high school in Japan.

The spouses who still join us each year for hospitality and celebration are a testimony to their loved ones who have passed. Larry Rowe has made these reunions his mission, and for this, we are forever grateful. He and Judy continue to be the leading forces in the process to find others who have attended Yokohama HS. It has taken years to build a roster of over 900 alumni. You can imagine how speechless and surprised Larry and Judy were on Saturday evening when they were presented with a monetary gift of gratitude from all the "exes" for their dedication and commitment to the FSA.

When we gather for the annual YO-HI reunion, there is synergy, a joy, and a well of new stories to be shared, besides an uncanny optimism that permeates the very places in which we gather. And so it was for the October 2009 Yokohama HS reunion in Seattle.

We truly inherited a place in history by being teenagers who shared the same experiences in a foreign country.

It is our sincere hope that others will join us in 2010 at the next reunion which will be held in Albuquerque, New Mexico, October 15-17.

Come, enjoy and renew old friendships.

# **GOLDEN WEDDING ANNIVERSARIES**

**Reldon Gifford (54) and wife Dixie - October 31, 2008.** We were married on Halloween 1958 in the Presidio Chapel. No big ceremony - only 7 people there. Having been married in October made the gathering of the clan difficult 50 years later (school schedules, weather, etc.), so we decided to have everyone at our house on the 4th of July with a good old fashioned country Bar-B-Q. We had major fireworks over the back field and a wonderful week was had by all. We can't wait for the 100th.

**Cleve Tarvin (54) and wife Maxine - June 5, 2009** - They will be celebrating the big day in September when their children and grown grandchildren will meet them at Hilton Head Island, S.C. to spend the weekend celebrating 50 glorious years!

**Betty Creech (58) and husband Rod McMillen - May 24, 2009.** Betty said "Rod still has our 1959 Chevy Impala, the only new car we have ever owned. We drove it for 20 years; it was never in the shop (they don't make them like that anymore). The kids learned to drive in it, but of course they were too embarrassed to be seen in what they called "The boat". Rod has fully restored it and wins trophies at car shows. The kids would be proud to be seen in it nowadays."

Valerie "Joyce" Murdoch (58) and husband Carl Rushing - July 4, 2009. The couple's five children hosted a barbeque for family and friends.

**Dan Flower (53) and wife Sharon - August 22, 2009.** They actually celebrated with their three children and their families (eight grandchildren) over the Christmas vacation in northern Mexico for a week of swimming, tennis, golf and other family fun.

Auburn Spencer (58) an husband, Bruce Romoser - September 3, 2009. They met in Yokohama in 1957. They were surprised with an unforgettable celebration in Dallas. Their five children and twelve grandchildren, living in five different states, all arrived with their entire families. The only exceptions were their son, Matthew (in Afghanistan), and one grandson. In additional to many family and friends, Auburn's 95 year old mother was also there. Their children pulled off the surprise by having the celebration in May.

Chuck Kenyon (54) and his wife Carol - October 3, 2009. They celebrated with a barbecue with family and friends, and a cruise.

#### Happy 50th Wedding Anniversary !

A Way to Share Memories .... by Bill "Pinky" Hart (56)

Sharing memories. I'm sure we all have memories of good times at YO-HI, of great friends and pictures of both those friends and of dances, sporting events or parties. It'd be a shame to lose any of those, but there's a good chance all of us will do just that. When we pass on, our loved ones may throw pictures away of people they don't know. Our families will certainly have no idea what our memories were of. Some time ago, I stumbled upon a way to preserve those memories and urge all of you to do the same.

When Sue Nelson (55) died, I wrote her husband to express my sympathy and we established a correspondence. I mentioned I had some pictures of Sue from her YO-HI days and asked if he had any interest in them. He replied that just prior to Sue's death, she had been working with their daughters on a family photo album and they had very few of Sue from that time of her life. I've since been sending to friends any pictures from our days at YO-HI that I have as

those pictures belong to them and their family, not me.

More recently, after learning of Warner Millson's death, I wrote his wife and shared several stories from the days Warner and I played basketball. Warner's wife, Lou, thanked me, told how they'd laughed while reading them and had copied the stories for their kids. They now have memories of Warner they may have forgotten or had never known about in the first place.

None of us are getting any younger and there are no guarantees so why not share your memories with your friends while all of you can still reminiscence about them together and not wait until it's too late?

## **Reunion Passports**

Remember when you traveled overseas with your parents, and everyone was required to have a current passport. Every time you entered a different foreign port they took your passport, and would stamp the name of the country you had just entered.

Now you can get a YO-HI reunion passport, and every time you attend a reun-

ion, your passport will be stamped with the name of the city where the reunion is being held.

Louise (Simon) Carlson (58), our dear friend and classmate who passed away in March, 2007, and her husband, Bob,

designed a "passport" book, and a seal for each reunion with the date and graphic.

Bob has regularly attended the reunions and, as a "Friend of YO-HI", Bob has graciously agreed to continue to be the "keeper of the passports".

You can buy your passport books at any reunion or by contacting Bob Carlson. The books are \$3.50 each (plus 2 stamps for mailing) and the reunion seals are free. If you are missing any seals, let Bob know which reunions you have attended and he will send you the correct seals.

> Contact Bob Carlson at: 501 Emery Street, Longmont, CO 80501 (303) 774-1977 E-mail: loubobC62@worldnet.att.net

## JAPANESE TRIVIA

- In the Japanese National Anthem (Kimigayo, written by a German) one verse states that the Emperor will live until small rocks grow into big ones. In reality, this is impossible. Big rocks however, do wear down to smaller ones.
- In 1993, Akebono, an American, was promoted as the 64th Yokozuna, and became the first foreigner to reach the top sumo rank.
- Koi are believed to be capable of climbing upstream against rapid currents and overcoming all manner of obstacles...hence they are thought of as a symbol of the strength, courage and patience needed to accomplish major goals. From this belief comes the custom of boys praying that they will take after koi and live their lives strongly. To symbolize this, boys hand out carp streamers, shaped like koi, on May 5, Children's Day.
- Since Japan extends a long distance from South to North, it varies from subtropical to subarctic. Average temperature in Tokyo is 5.2 C in January while 27.1 C in August.
- On September I, 1923, one of the worst recorded earthquakes hit the Kanto plain and destroyed Tokyo, Yokohama and the surrounding areas. About 140,000 people were killed during this earthquake and the subsequent fires. *Note: Ken Kaiser (58) reported that there was a monument to this earthquake in Yamashita Park in Yokohama. He said he remembers it well (the monument, not the quake). He's old but not that old!*
- The Japanese word for chef, Itamae, literally means "in front of the cutting board."

#### Do You Know the Answer???

To Steve Radford's questions.....As one would walk through Bayview (From the YCAC) there was a white mansion on the right that was trimmed in green. It stood out starkly from the remainder of the mass-built "project type" military

houses in Yokohama. I have heard it called the "MacArthur house", but General MacArthur lived in Tokyo during the occupation, not in Yokohama. Can anyone provide some information about this house and (or) the occupants?

#### What Did You Want To Be When You Grew Up?

#### Stop Capitalizing the First Word on the Next Line in MS Word

**Question:** When you're typing a letter in Microsoft Word and you want to continue the sentence on the next line, why does Word capitalize the first word on the next line?

**Answer:** Word capitalizes the first word in a new line because it is programmed to think that you are starting a new paragraph when you press "Enter" on your keyboard. All modern word processing programs will automatically wrap the text to the next line when you are typing, so you no longer need to press the "enter" key at the end of each line.

If you prefer to wrap the text yourself by pressing "Enter", then you will need to turn off this feature in Words "Auto Correct" options. Do the following:

- I. In Word, click on "Tools" in the menu bar, then click on "AutoCorrect Options".
- 2. In the "AutoCorrect" window, click on the "AutoCorrect" tab.
- 3. On the AutoCorrect tab, click to remove the check mark in front of the setting that says, "Capitalize first letter of sentences".
- 4. Click the "OK" button to save your changes, and you will be all set.

#### Short Cuts to Bold, Underline & Italics

Instead of going to the tool bar and clicking "B" (bold), "I" (italics) and "U" (underline), you can turn the formatting for bold, underline and italics on and off by holding the "Ctrl" key and pressing the following keys at the same time - "B" (bold), "I" (Italics) and "U" (underline).

#### How to Clean Your LCD Screens

Don't buy one of those \$12 cleaning kits.

I.Buy a microfiber cloth which can be found at your local mega-mart or drug store.

2.Hold it under some luke warm water until it is completely wet.

3. Wring it out until it is barely moist. *Important:* Dripping water will damage the monitor.

4. Make sure the monitor is turned off.

5.Wipe it with a gentle stroke.

In no time you'll have a nice, spotless screen and peace of mind in knowing that you saved some money, too!

#### Delete, delete, delete.....

Do yu act like a telegraph operator on their backspace key. You know what I'm talking about. You've just finished a line of text, it doesn't look right, so you want to delete the whole line. "*Ratta-tatta-ratta-ratta*", and your finger falls off...

There's a better way! Simply put your cursor at the beginning of the line you want to delete and press [Shift] + [End]. The whole line will be selected and then all you have to do is press [Delete] or [Backspace]. The best part is that, because your cursor is already at the beginning of the line, all you have to do is type!

#### Looking for YO-HI Yearbooks

#### Hey!! You Military Brats...Can you Relate? I Think So....

Submitted by Dennis (Corky) Kramer

This submission should generate some replies - I 'm probably one of the prime examples of "You might be a military brat"! I started my schooling in Germany in 1947 (I had just turned 5 and my brother John was almost 8). There was no school in Kempten, so my Dad

hired a German woman as a teacher and I think we used the barroom in the Officer's Club for a schoolroom! There were about 5 kids there (I think I was the youngest). That was my 1st & 2nd grades. Third grade was at an American school in Augsburg.

We moved back to the states in 1950. I went to 9 different schools (8 different cities in 3 states & D.C. & 2 foreign countries) from the 3rd to the 12th grade and went to Leland Jr HS in Bethesda, MD for 3 years (7th thru 9th grades). I changed schools midway thru the 6th grade!

We moved to Japan in 1956 and I went to Kyoto AHS -10th grade (It closed after that). I went to YO-HI (57-58 -11th grade) and then we moved to Hawaii. I graduated in 1959 from Leilehua HS in Wahiawa, Hawaii and went to the U of

Hawaii for one year. There were hundreds of kids in Hawaii who had never been off the island of Oahu (and had never seen snow)! I then moved to the mainland (Hawaii had become our 50th state) and went to Purdue Calumet in Hammond, IN! I thought this was normal!!

I have never met anyone who even came close to this experience...except my brother John! One funny thing...I was very small and one year younger than everyone in my class. When we moved to the states in 1950, I went to a St. Joseph's Catholic school in Conshohoken, PA... I think. I was directed to a classroom and sat in the class for about 2 or 3 days before I figured out that I was in the 3rd grade again!! I was then put in the correct 4th grade classroom!! I guess I was so small they assumed I was in the 3rd grade!!

I would like to hear from any classmates (Military Brats) who went to more schools or moved as many times as that! Needless to say, when I go to a reunion I have a hard time remembering classmates, but I did learn to make friends easier than most people!!

#### Counts so far.....

Dave Hall (59) - 11 schools, 12 if you count kindergarten Bill Hunt (65) - 10 schools Frank Wandell (57) - 15 schools & 3 colleges Carole Vann (61) - 15 schools Barbara Georgia (56) - 11 schools Pat Thomas (59) writes - 19 schools Mark Keeney (61) - 14 schools Rich Jewett (59) - 10 school districts & 15 buildings

Another phenomenon....students who went all four years of high school at YO-HI. Steve Radford reports that he was among the following civil service brats who graduated in 1964: Marie Pace, Kathy Saito, Claudia Swan, Ben Caputo, Pat Collins, Lew DePriest, Bill Miller, Allan Ostsby, Randy Uyeoka and Mike Weise. What about the other classes?? Since the standard military tour was three years, it would be interesting to know if any military brats attended YO-HI for their entire four year high school career!

#### YOU MIGHT BE A MILITARY BRAT if .....

- \* You thought that a firing range made a great playground.
- \* Your former very best friends are as long gone as your last move.
- \* You are amazed at people who have never seen foreign currency.
- \* You are asked "Where did you learn to speak English so well?"
- \* You can talk to anyone and everyone from anywhere and everywhere.

# Memoirs of Japan

The following memoirs were written by Barbara "Bang-Bang" Gunn (56) about her trip to Japan, and the years she spent there. Barbara passed away November 12, 2007, but her memoirs live on.

You would not want to swim in most of the water around the base. Besides the oil and other residue from the ships there were things like, Man of War Jelly Fish. From the dock at the Yacht Club you could them floating in the water. They were beautiful, but you certainly do not want to be in the water with them as they sting you very badly.

Besides all the usual activities of school, Y-TAC, and birthday, slumber, and sayonara parties, one of the first things I got involved in was selling Christmas cards as a fund raising project for the Y-TAC. Pam Kenney and I decided to team up rather than go alone. We decided to go to the Hospital and there discovered that LCDR Charles F. Mann was the Administrative Officer we met with. He had come to Japan on the ship with us, at which time I met him, and he told me of his son, Chuck Mann, who arrived shortly thereafter and joined us at the Y-TAC. He signed a very official card which gave us access to the hospital at any time to sell cards to the patients. He did suggest a couple particular wards where Korean War veterans were recurperating from various injuries, including the amputee ward. That was an experience I will never forget. We were summoned to the bedside of one soldier who had lost his right arm and leg (double amputee). He so needed someone to talk to. You might say he was still in a state of shock and showed us pictures of his family and wept as he was having a hard time opening his wallet with only one hand. As it turned out we were not there just to sell cards, but to visit, help, and comfort the injured. It brought reality to the war, which was now supposedly over. We did very well with our sales of \$253.75 and received a \$10.00 prize for first place as a team. Don Stinson received a \$15.00 prize for first place as a single.

Before I had come to Japan I had learned to make artificial flowers out of wood fiber. They looked almost real. While taking classes to learn to do this at Flowers by Marguerite in El Cajon, I had done so well that I was helping teach the class. Marguerite saw this and hired me part time to work with real flowers. With the money I earned I bought a supply of wood fiber materials to take with me to Japan. As we did not have a maid, the maid's room was a perfect place for me to leave everything setup and I began making corsages. My father was my best salesman. As men's wives were arriving in Japan my father would suggest buying them a corsage that would not wilt and they could use it again and again. With that my little business flour-ished.

As I have already indicated there were many activities for us to be involved in, both on base and off. We were able to take in the latest movies at the base theatre, but they were always behind time in comparison to the U.S. The Newest releases, such as "The Glenn Miller Story," were only shown at the Theatre, and we only got the older ones at the Y-TAC. I went to see the above movie several times. First of all you have to remember the cost was very minimal, however, I do not remember what it was.

The swimming pool was one of my favorite places during the warm weather. It was an Olympic size pool and we even had professional type swim meets. The contestants are servicemen, who may have been involved in these activities as a civilian, and their free time activities do not necessarily change just because they are in the military. Of course for the military men there were other sport activities such as baseball, basketball, and football.

There was also a Yacht Club where boats could be rented to go sailing, fishing or whatever. One time I joined several other kids and we went sailing on the Buccaneer. It was a beautiful fun day, but after a while the water started getting rougher and rougher. We soon found that we could not turn around and head back in because the wind was picking up and was against us. So we tried tacking, but we did not seem to be making much headway. What we had not realized was the Red Flag, an indication of bad weather, had been put up earlier in the day, and we had not seen it. When we did not come back into the yacht club within a reasonable time they sent a large motorboat out to tow us in. It was a bit embarrassing but we were thank-ful. It was quite an experience, but not one I would like to repeat.

#### In Memoriam

**Pearl (Fujimoto) Adams (1962)** - Her daughter, Julie, reported that Pearl passed away on May 19, 2009. She had gone in for another hip replacement surgery because cancer had destroyed the first one. As the doctor was removing the tumor, it began to bleed severely. She lost over three times the volume in her body and it was just too much for her. They kept her on life support long enough for family and friends to say good-bye. Julie says that "through this experience, I have met some amazing people who loved my Mom very much. I appreciate you all for being her friends and supporting her through good times and bad. She loved you all. Just so you know, Mom was doing very well emotionally the few days before surgery. She was hopeful and confident in her doctor."

Janet Elaine (Barrows) Connaughton (1956) - Janet passed away of natural causes on January 30, 2009 at her home. Janet was a CEO for United Foundation for Medical Care.
